PROFESSIONAL SUMMARY

Business Operations professional with **3+ years of experience** in business operations, moving into **data analytics**. Hands on experience in **reporting, data modeling, MIS frameworks, Power BI dashboarding** and **data driven decision** support with proven track record of **#1 among 50+ managers** for **404% KPI attainment, 88% reduction in operational risk** and **80% revenue uplift**. Google Data Analytics Certified and **NASSCOM FutureSkills Prime (Gold, 91%)**.

SKILLS

Reporting Analytics & BI: Power BI (DAX, Dashboards, Data Modelling), Tableau, KPI Tracking & Automation, MIS Reporting
Data Analysis & Validation: SQL (CTEs, Window Functions), Python (Pandas, NumPy), Advanced Excel (Macros/VBA, Pivot Tables, Power Query), ETL, Data Cleaning, Data Modeling, KPI Dashboarding, SLA-driven Reporting, Reporting Operations
Visualization & Communication: Dashboard Development, Funnel Analysis, Trend & Pattern Analysis, Data Visualization, Stakeholder Presentations
Tools: MySQL Workbench, Jupyter Notebook, CRM Data Support, Google Sheets, Primary/Secondary Research, Data Governance

WORK EXPERIENCE

AI Variant | Business Analyst Intern

Mar 2026 – Jun 2026

- Analyzed a **50,000-record HR dataset** to identify a **50.21% attrition rate** across **6 departments**, surfacing **promotion stagnation** and **low job satisfaction** as the main drivers.
- Built **Tableau and Power BI dashboards** with department **drill-downs** and **income-vs-attrition analysis**, enabling decision-makers to **prioritize R&D as the highest-risk unit** with a **51.21% attrition rate**.
- Trained the analytics workflow across **SQL, Excel, Tableau, and Power BI** to validate **consistent results** and deliver **end-to-end dashboard** output.

OYO (DanCenter A/S) | Senior Executive

Jun 2024 – Jan 2026

- Built an **Excel-based inventory framework** that refreshed booking **data hourly** and flagged **confirmed bookings at risk** of denial, cutting **check-in denial rate by 88%** and keeping the hub-wide **rate below 3%**.
- Created an Excel **MIS reporting framework** with Hotel Managers to track **guest dissatisfaction** touchpoints, **reducing Unhappy Score by 73%** and **improving CSAT**.
- Monitored **SLA compliance** and **realization KPIs** for the Bhubaneswar Hub, maintaining **weekly risk documentation** and earning **Best Senior Executive** for two consecutive quarters.
- Developed a **Realization Tracker** and audit protocol to **identify revenue leakage**, increasing monthly portfolio **revenue by 80%**.
- Implemented a monitoring framework for **unauthorized guest charges** and **overcharging** complaints, **eliminating** incidents by **95%+** and expanding **Company-Serviced** properties from **1 to 12**.

Ashish Panda Food And Beverages Co. | Operations Associate

Apr 2021 – Jun 2022

- Managed end-to-end daily operations across a **25-member team**, overseeing **inventory control, vendor coordination** (8-12 vendors), order tracking, and **dispatch for ~200 daily orders** spanning dine-in, takeout, and delivery.
- Maintained **stock registers** and prepared **operational reports using Excel**, supporting inventory decisions across a **₹20L+ stock base** and minimizing stock discrepancies and tracked **HR performances** metrics using **Excel**.

PROJECTS

Apple Store Sales Analytics (Tools: MySQL, SQL, CTEs, Window Functions, Query Optimization)

[Project Link](#)

- Designed a normalized **5-table relational schema** and imported **1M+ transactions** across **75 global stores** (2019–2024).
- Identified and removed **493K invalid sales records** and **2,511 warranty anomalies** through a structured data quality audit and reduced query execution time by up to **70% using strategic index creation**, used **EXPLAIN ANALYZE**, and **virtual computed columns**.
- Answered **23 business questions** spanning sales performance, warranty risk, product lifecycle, and store operations using **JOINS, CTEs, Window Functions (RANK, LAG, Running SUM)**, and subqueries.

Aurora Bank Risk & Spend Dashboard (Tools: Python, MySQL, Power BI, DAX, Star Schema, RLS, ETL)

[Project Link](#)

- Analyzed 157K+ transactions across 2,000 customers**, building a **two-pillar risk model** that segmented 22% of the portfolio into a **'High Risk'** tier based on custom **Debt-to-Income (DTI)** calculations and credit exposure.
- Diagnosed a 1.74% transaction failure rate**, identifying 'Insufficient Balance' as the primary error driver and flagging a disproportionate risk concentration within the Mastercard portfolio (accounting for ~50% of failed transactions despite holding the highest credit limit exposure).
- Engineered an automated Power BI pipeline** with Python-based data cleaning (handling missing values and structural nulls) and implemented **Row-Level Security (RLS)** to enforce **department-level data governance** for Executives, Risk Analysts, and Relationship Managers.

Freight Cost & Profitability Analysis (Tools: Advanced Excel, Pivot Tables, Data Modelling, FRED API)

[Project Link](#)

- Analyzed **20+ years of global sea vs. air freight index data** (2003–2026) to quantify post-COVID supply chain disruption — finding **freight costs remain 36% above 2019 baseline** with blended **inflation of 61.75%**.
- Built a profit impact scenario model demonstrating how **freight cost surge** could compress **business margins from 20% to 7.65%** — delivering a decision-ready strategic **pricing tool** for stakeholder review.

EDUCATION

Master of Business Administration — Marketing & Operations | CGPA: 9.4

Jul 2022 – May 2024

Amity University

Bhubaneswar
